

CONTACTS: Supporting Standing Rock

I know there are a lot of petitions out there, but your voice is better heard when you write your own stories. Right now we need to have a massive writing campaign to the powers that be regarding Standing Rock and the opposition to the Dakota Access Pipeline.

I'm attaching a list of people to contact and yes, many of the them you can leave messages on their Facebook pages. We need people to write into at least the Primary contacts and demand a formal, mandatory halt to the construction of the pipeline until the Treaty rights, sacred sites and threat to the Missouri River/Lake Oahu can be addressed. Additionally, write about the law enforcement abuses against the protectors.

Like other comments, start out with your name and where your from. Then launch into why you are writing. Here are a few talking points, then the contact list will follow. Just write up your notes and copy and paste them into emails, contact forms, Facebook messages, call them in, etc. Do as many of the contacts as you can.

We need to be asking that they take stronger interventions measures as Energy Transfers has ignored the request for a voluntary halt of the construction of the Dakota Access Pipeline by the U.S. White House, Department of the Interior, Department of Justice and the U.S. Army Corp of Engineers.

The construction of the pipeline is rapidly encroaching on the Missouri River, Native sacred sites and the area of the Protectors' Camps. Once these sites are destroyed, there is no bringing them back. The State of North Dakota and Morton County law enforcement officials are getting increasingly physically aggressive with their handling of unarmed and non-violent Protectors.

Energy Transfers, a Canadian based company, has repeatedly demonstrated its disdain for U.S. authority and for U.S. American Indian Nations by proceeding with the construction of the pipeline even though it's under additional review by the USACE, by deliberately desecrating sites identified as culturally significant and sacred and by employing physically aggressive behavior towards U.S. citizens.

The State of North Dakota and Morton County Sheriff's department are calling in law enforcement officials from across the country to assist in facing off with the Protectors.

Standing Rock Nation has requested the Department of Justice intervene concerning Morton County and the State of North Dakota's aggressiveness by law enforcement officials. Support the requested investigation.

From YES Banks supporting Pipeline

Here are names of CEOs and other bank executives involved in these decisions—along with their phone numbers and email addresses. The first 17 banks (*) are directly funding the Dakota Access pipeline:

“As a customer of your financial institution, I reject the notion of my money helping to support your investment in the Dakota Access pipeline, an inherently dangerous and unjust oil pipeline that threatens air and water quality in many states, and violates sacred lands of the Standing Rock Sioux tribe. I urge you to give up your financial stake in the Dakota Access pipeline immediately.”
